

M700
Modular Series

CONTROL MODULE

The M700 platform offers maximum scalability to adapt to your changing processing needs. The M700C Control module puts the flexibility of the Modular Series at your fingertips.

- Intuitive interface for ease of programming
- Automatic module detection/operation from one location
- Automation of jobs with scalable kitting feature (single or multiple batch)
- Job manager software available (provides remote/PC programming capabilities)

ADAPTING TO DIFFERENT PROJECTS, MATERIALS AND SPECIFICATIONS IS SIMPLE AND TAKES ONLY SECONDS.
