

M700
Modular Series

FEEDER MODULE

For production optimization, the M700F Feeder Module transforms the Modular Series into a fully automated platform for processing your material.

The Feeder module delivers a precision method of material transport.

- Consistent output delivers accurate results
- Standalone feeding capability (with M700C)
- Option of automatic or manual processing provides complete flexibility

ADAPTING TO DIFFERENT PROJECTS, MATERIALS AND SPECIFICATIONS IS SIMPLE AND TAKES ONLY SECONDS.

AR3400 SPECIFICATIONS

Material Size:	1/64" (0.4mm) - 1-1/8" (28.6mm) OD
Feed Length:	0.100" (.254cm) - 99,999" (99,999cm)
Feed Rate:	10 feed rates
