

M700
Modular Series

HARD WIRE CUTTER MODULE

The M700HW Hard Wire Cutter Module cuts hard wire to your specifications. The Hard Wire Cutter Module uses an innovative (patent pending) pneumatic-powered cutting mechanism to cut fine hard wire.

- Patent pending cutting head cuts hard alloy wire to 0.055" OD
- Automatic or manual processing capabilities
- Can be integrated into existing processes/equipment

ADAPTING TO DIFFERENT PROJECTS, MATERIALS AND SPECIFICATIONS IS SIMPLE AND TAKES ONLY SECONDS.
